

NEBOSH PSM Element (1) EXAM QUESTIONS part 1

Q.1 Process Safety Leadership (PSL) include one of the key elements?

1: MOC

2: Planning

3: Management Review

4: None of the above

Q.2 Process Safety means?

1: Prevention of Incidents

2: Prevention of near misses

3: Prevention from legal actions

4: None of the above

Q.3 In process Safety Leaders need **not** to be aware about?

1: Legal requirements

2: Value of competence

3: Design, commissioning, operations & decommissioning

4: None of the above

Q.4 Board Level Commitment to Process Safety is often achieved by?

1-Team Training

2- Meetings

3-Emails

4-Being visible

Q.5 Board Level Visibility in PSM means;

- 1: Asking critical questions
- 2: Site Visits
- 3: Supporting Risk Assessment Process

4: All of the above

Q.6 In Process Safety Responsibilities **allocating resources** is the responsibility of?

- 1: Safety professionals
- 2: Engineers
- 3: Managers**
- 4: Customers
- 5: Workers

Q.7 In PSM the reason to holding all employees accountable is to?

- 1: Encourage engagement
- 2: Look to root causes
- 3: to understand high potential consequences

4: All of the above

Q.8 The provision of appropriate resources in PSM is to ensure?

- 1: Highly standardized organization (منظمة ذات معايير عالية)**
- 2: To keep customers happy
- 3: BOTH 1 & 2
- 4: None of the above

Q.9 Setting Process Safety Objectives need to follow?

- 1: PDCA**
- 2: Company Policies
- 3: Establish overall objectives first**
- 4: None of the above

Q.10 Following leading indicators ensures? الأداء الاستباقي

1: Company Success

2: Process Success

3: Process Failure

4: None of the above

Q. 11 Why might process safety be considered a continuous improvement?

1: No fatal explosions

2: No legal violations

3: Employees are safe

4: Plant, environment are safe

سلامة العمليات لا تتوقف عند غياب الحوادث، بل تستمر لضمان سلامة المنشأة والبيئة على المدى الطويل.

Q.12 Unsafe acts or unsafe conditions fall under?

1: Poor PSM

2: Immediate Cause

3: Root Causes

4: None of the above

Q.13 Reasons for investigating accidents?

1: Legal compliance

2: For updating Risk assessments

3: Pattern & trends discovery

4: All of the above

Q.15 Comparing your company's performance with other organizations is called?

1: Matching KPIs

2: PSM performance measurement

3: Benchmarking

4: None of the above

Q.16 PSM info sources?

1: SDS

2: SOPs

3: P & IDs

4: All of the above

Q.17 Management of Change is ----- a PSM?

1: Backbone

2: Cornerstone حجر أساس

3: Crux

4: None of the above

Q.18 Management of Change (MOC) needs which of below documents as an effective support?

1: Original PDC (Process Design Criteria) & HAZOP التصميم الأصلي

2: Existing Process drawings & details of trip & alarms planned الرسومات الحالية

3: Proposed Changes details تفاصيل التغيير المقترح

4: All of the above

Q.19 Updating the process & instrumentation diagrams, operations manuals may require after applying? تحديث مخططات العمليات والأجهزة

1: HAZOP

2: HAZID

3: MOC

4: None of the above

Q.20 MOC approval process required to ensure the below?

1: Additional Trainings

2: Ensured Competence

3: Both 1 & 2

4: None of the above

Q.21 MOC needs to consult & inform the following **except**?

1: Customers

2: Operational Workers

3: Maintenance Workers

3: Affected Employees

Q.22 Effective MOC should be result of?

1: Individual Decision Making

2: Collective Decision Making قرار جماعي

3: Effective Consultation تشاور فعال

4: Both 2 & 3

Q.23 What is the benefit of Worker Engagement?

1: Higher productivity

2: Higher products quality

3: Closer cooperation to improve Safety culture المشاركة تعزز الثقافة وليس فقط الإنتاجية أو رضا العملاء

4: Customer Satisfaction

Q.24 Limitations of Worker Engagement are the following EXCEPT?

1: Not all matters being by true consultation

2: Consultation takes time because of RAPID DECISION MAKING اتخاذ القرار بسرعة

3: Non safety matters discussion

4: Well structured consultation Process هذا ليس قيداً بل عنصر إيجابي (عملية استشارية منظمة بشكل جيد)

Q.25 The best methods for effective consultation is?

1: Individual Phone calls

2: Safety committees & Discussion Groups

3: Safety Circles, meetings & email with web-based forums

4: Both 2 & 3

Q.26 The arrangements for Consultation & engagement must be audited and it must be included the below **EXCEPT**? يجب تدقيق (مراجعة) ترتيبات التشاور ومشاركة العاملين، ويجب أن يشمل التدقيق ما يلي

- 1: Scheduled meeting measurement قياس وانتظام الاجتماعات المجدولة
- 2: Departmental Attendance of representation تمثيل وحضور الأقسام المختلفة
- 3: Accurate minutes with action plans & effective communication

4: Board level visibility التدقيق يركز على آليات التشاور نفسها: هل تُدار بشكل صحيح؟ هل تُوثق؟ هل يشارك فيها العاملون فعلياً؟

Q.27 The blend of **less** knowledge, skills & experience is called?

- 1: Competence
- 2: In-competence**
- 3: Professional
- 4: None of the above

Q. 28 PSM is the responsibility of?

- 1: Everyone
- 2: Top Management
- 3: Plant & maintenance staff
- 4: All of the above**

Q.29 What is the framework for Competence Management Systems for Process Safety?

- 1: High-level policy statment
- 2: Facility minimum PSC & competence assessment
- 3: Rectuitment, training & development, ownership & commitment for Contiouise improvement
- 4: All of the above**

Q.30 What are the Training & Development programmes Groups applicable to Process Safety Risk?

ما هي مجموعات برامج التدريب والتطوير المناسبة لمخاطر السلامة في العمليات

- 1: PS leaders for their responsibilities
- 2: Fundamentals of PSM training to managers, supervisors, designers, safety advisors
- 3: Specific process hazards & control training to operators & technicians

4: All of the above

Q.31 Process Safety mainly deals with? السلامة العملية تتعامل بشكل أساسي مع

- 1: High frequency, high severity risks
- 2: Low frequency, low severity risks,

3: Low frequency, high Severity risks مخاطر منخفضة التكرار وعالية الشدة

- 4: High frequency, low severity risks

Q.32 Within MOC procedure, **final approval** for removal of a safety critical device should be given by إزالة جهاز حرج للسلامة قرار عالي الخطورة/ إزالة أو تعطيل أو تجاوز جهاز مصمم لمنع حادث كبير أو تقليل عواقبه?

- 1: Process Engineer
- 2: Process Technician
- 3: Chemical Engineer

4: Senior Manager

Q.33 Benchmarking is used to identify good practice across similar?

- 1: Groups
- 2: Procedures

3: Organizations

- 4: Committees

Q.34 What is the **most important** benefit of involving workers when carrying out risk assessments?

- 1: To reduce resistance & conflict
